ALEKSANDAR MARČETIĆ

FULL-STACK DEVELOPER

PROJECTS

Tvoja Pomoć

JUL-2024 PRESENT

<https://tvojapomoc.vercel.app/>

- Developed a platform connecting individuals needing assistance with helpers offering various services. Implemented features for posting jobs, finding helpers, and real-time communication through chat. Designed a responsive interface for both users and helpers to interact seamlessly.

Portfolio

MAJ-2024 JUN-2024

<https://portfolio-coja.vercel.app/>

- Created an interactive portfolio website inspired by modern web design principles, showcasing a dynamic presentation of projects with immersive visuals and detailed descriptions. The site features a responsive layout, integrating advanced animations and a seamless user experience to highlight my skills and professional journey.

E-commerce Admin and Store System

FEB-2024 APR-2024

<https://ecom-front-coja.vercel.app/> <https://ecom-admin-coja.vercel.app/>

- Developed an Admin Website to manage store data (products, categories, users, store info) and an E-commerce Website that shares the same database. The e-commerce site displays data from the admin and includes Stripe payment integration (test mode).

Restorani Subotica

DEC-2023 JAN-2024

<https://restorani-subotica.vercel.app/>

- Developed a web application for restaurant owners in Subotica to showcase their establishments, menus, and contact information to potential customers. Implemented a mobile-friendly feature allowing users to place orders directly via phone call.

AMedia

FEB-2024 MAR-2024

<https://amedia-five.vercel.app/>

- Created a dynamic landing page for Amedia, a company specializing in website development, web design, and graphic design services. The landing page showcases the company's offerings and includes a contact form for inquiries.

EDUCATION

High School Diploma

2018-2022

Srednja tehnička škola "Ivan Sarić"

- Completed a comprehensive 4-year curriculum with a strong emphasis on computer science and programming.
- Developed foundational skills in HTML, CSS, and JavaScript, laying the groundwork for pursuing a career as a front-end developer.
